Tel: 914-841-3012 Email: wei.pan@honeywell.com

Featured Keynote Speaker

2012 ACS President-Elect
Dr. Marinda Li Wu

Celebrating Chemistry, Globalization, and Diversity

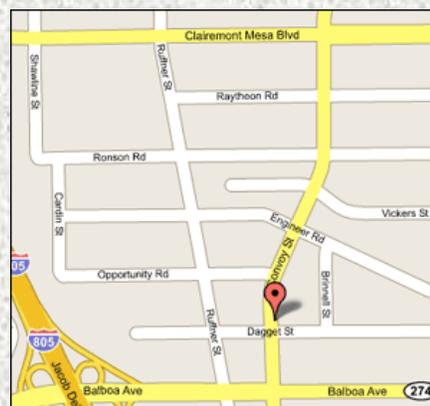

"Celebrating Chemistry, Globalization, and Diversity" is the theme I have chosen for the 2013 spring national ACS meeting in New Orleans next year when I become ACS President. I would like to give you a preview of my ACS Presidential initiatives and solicit your suggestions and input. Two areas I wish to focus on include increased support for 1) Jobs and how to help more members with professional development and 2) Global outreach and collaborations to benefit the global chemistry enterprise

and strengthen the ties and exchange between scientific communities both here and abroad.

I will also offer some thoughts on leadership and share highlights from my own personal and professional journey that brought me to where I am today. I look forward to working together to celebrate Chemistry, Globalization, and Diversity!

The Chinese-American Chemical Society (CACCS): Founded in 1981, CACCS is a nonprofit, professional organization and has neither national nor regional political affiliation. Membership is open to professionals and students in chemistry, chemical engineering, and related fields, and to individuals and corporations supporting the objectives of the society. Currently, CACCS has a total of 5 local chapters in North America. For more information, visit <http://www.cacshq.org/>.

Carpooling location near the San Diego Convention Center will be announced before the banquet. Stay Tuned.

CHEMISTRY OF LIFE
243rd ACS National Meeting and Exposition, San Diego, CA (March 25-29, 2012)
